

# Faridabad... a City of Industries

## A Factsheet

Faridabad is located in northern India within the State of Haryana. It is about 284 km to the south of the state capital, Chandigarh, and is part of the National Capital Region, being about 32 km to the south of Delhi. It is the largest and most populous city in Haryana with a total population of 1,404,653. The town is bound on the north by State of Delhi, on the east by Agra and the Gurgaon canals and on the west by the Aravalli Hills. The River Yamuna flows on the northern side of the city and moves away as flows southward.

Faridabad is the most industrialized city in the State of Haryana. It alone, generates about 60 percent of state revenues. There are about 15,000 small, medium and large industries in this area providing direct and indirect employment to nearly half a million people. It is ranked ninth amongst the largest industrial estates in Asia.

**Source of water supply** to Faridabad city is ground water, tapped from 1,410 deep tube wells located in various parts of the city, and from seven rain-fed wells located along the River Yamuna; which flows, at a distance of about 10 km, along the length of Faridabad-Ballabgarh.

Municipal Corporation Faridabad (MCF), has privatized **operation and maintenance** of all the tube wells supply water to the city. The private operator uses a centralized monitoring system to control the hours of operation of tube wells.

Faridabad is ranked 88 out of 434 cities and won the 'Fastest Mover Big City' award in **Swachh Survekshan 2017**.

262 MLD	Total water supply	
	Population with water connections	62%
107 LPCD	Per capita water supply	
	Non-revenue water	51%
89.1%*	Population using individual house toilets	
	Population using open defecation	8.6%*
2.2%*	Population using public toilets	
	Population connected to sewerage network	49.9%*
25.5%*	Population having septic tanks	
	Approximate wastewater generation	200 MLD
160 MLD	Wastewater treatment capacity	* - Census 2011

**Responsibility matrix** for water and sanitation service delivery at city level

	Financing	Asset creation	Operations & maintenance	Tariff & revenue	Monitoring & evaluation
